

07.04 Multiplying and Dividing Rational Expressions

Concept summary and key formulas

Key ideas

This subsection focuses on rational expressions and equations.

State denominator restrictions before simplifying or solving.

Key formulas

$$\frac{a}{b} \cdot \frac{c}{d} = \frac{ac}{bd}$$
$$\frac{a}{b} \div \frac{c}{d} = \frac{a}{b} \cdot \frac{d}{c}$$
