

## 13.01 Arithmetic Sequences

Concept summary and key formulas

### Key ideas

This subsection focuses on sequences and series.

Check whether the pattern is additive or multiplicative before choosing a formula.

### Key formulas

$$\begin{aligned}a_n &= a_1 + (n - 1)d \\a_n &= a_1 r^{n-1} \\S_n &= \frac{n(a_1 + a_n)}{2}\end{aligned}$$
